KEYSTONE (JUNIOR) MOVIE PROJECTORS

16 MILLIMETER

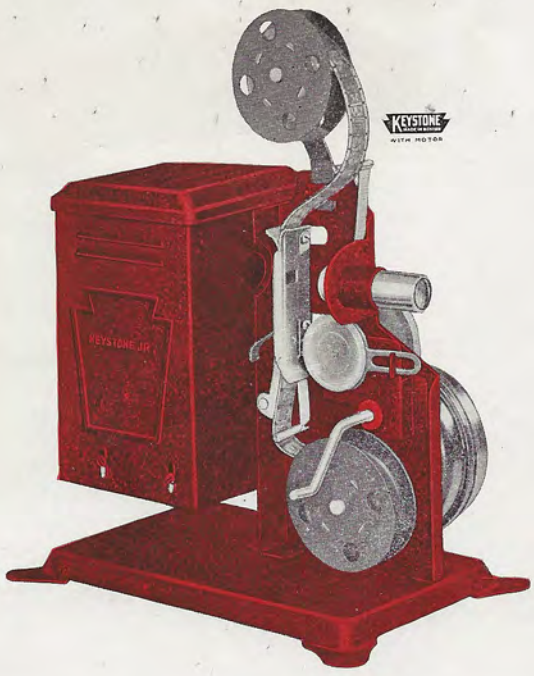

GENERAL SPECIFICATIONS OF ALL MODELS

All projectors are guaranteed to show clear and distinct pictures. All models will fit any 16 m.m. width film. All models (except E-29 and E-31) will operate on any 115-volt house current, A. C. or D. C. For use with ordinary house bulbs up to 75-watt depending on size of machine model. For use with ordinary electrical appliance house cord. Bulb and cord furnished only with E-65, E-67 and E-53. All projectors can use either regular roll film or loop film.

← MODEL E-24

Can use up to 50 feet of film. Hand crank. FINISH: Maroon enamel. SIZE OF MACHINE: 8½" x 4½" x 12" high. Shows picture about 18" x 22" at distance of 8 feet. 50-foot spool furnished. WEIGHT: 35 lbs. per dozen.

(See general specifications)

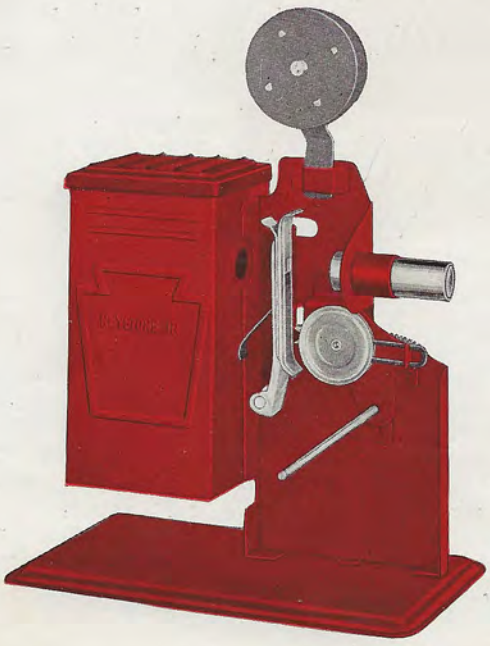

LOWEST PRICE ELECTRICAL MOTOR DRIVEN MACHINE EVER MADE

MODEL E-29 →

With A. C. Motor. Can use up to 50 feet of film. FINISH: Maroon crystal. SIZE OF MACHINE: 9½" x 7¼" x 12" high. Shows picture about 18" x 22" at a distance of 8 feet. 50-foot spool furnished. WEIGHT: 56 lbs. per dozen.

(See general specifications)

Will operate with either short loop films or up to 25 foot lengths

AN EXCELLENT VALUE TO SELL FOR $1.00

← MODEL E-21

FINISH: Red enamel. Hand crank. SIZE OF MACHINE: 8½" x 4½" x 12" high. Shows picture about 18" x 22" at a distance of 8 feet. 25-foot spool furnished. WEIGHT: 31 lbs. per dozen.

(See general specifications)

JUNIOR PROJECTORS

MICKEY MOUSE PROJECTOR

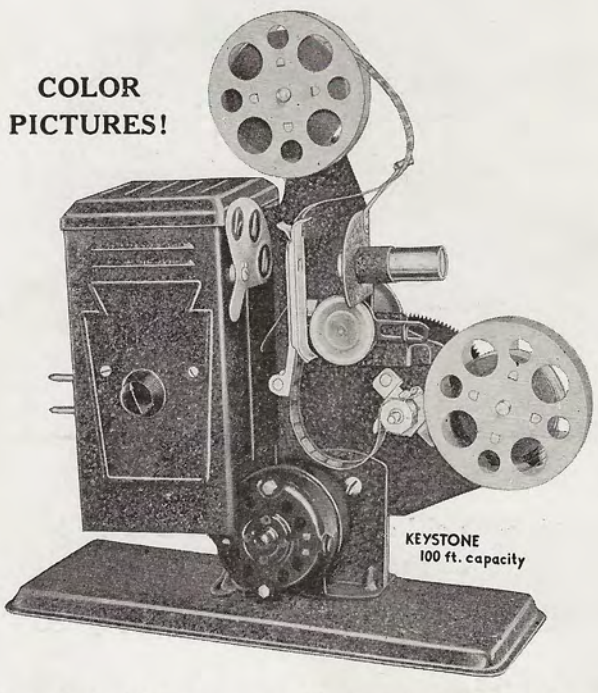

BY SPECIAL PERMISSION OF WALT DISNEY

MODEL E-18

(See general description page 3)

One of the outstanding successes of the year. Can use up to 50 feet of film — hand crank. FINISH: Green enamel with Mickey Mouse decoration. SIZE: 9½" x 6¼" x 12" high when spool is in place. FURNISHED: One empty 50 foot spool. WEIGHT: 56 lbs. to dozen when packed for shipment. (See general specifications.)

COLOR PICTURES!

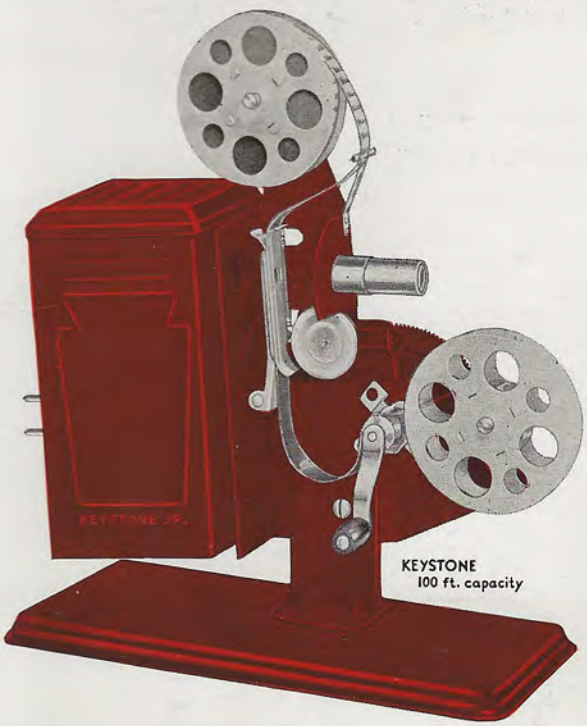

This model will show up any black and white film in color!

MODEL E-33

Universal Motor, with speed control for motor. Three color feature, red, green and blue, semaphore that operates between the light and the lens. FINISH: Black crystal. SIZE OF PICTURE: Up to 20" x 26" at a distance of 10 feet. Smaller pictures at a shorter distance. WEIGHT: When packed for shipment 93 lbs. to the dozen.

(See general specifications)

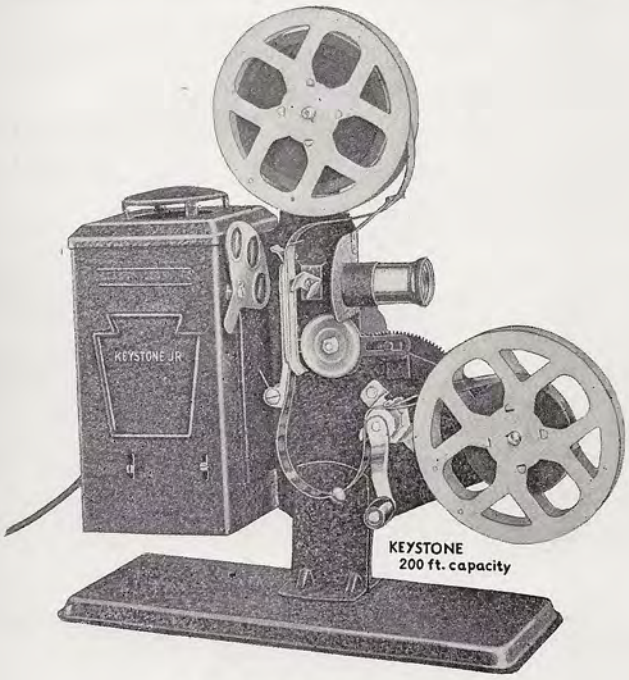

MODEL E-26 HAND CRANK

Can use up to 100 feet of film. Finished in maroon enamel. Has tilting device for angle projection. FURNISHED: One 100 foot empty spool. SIZE OF PICTURE: Up to 20" x 26" at a distance of 10 feet from the screen. Smaller pictures at shorter distances. WEIGHT: 76 lbs. to the dozen, when packed for shipment.

MODEL E-31—Same as E-26 but with A. C. Motor

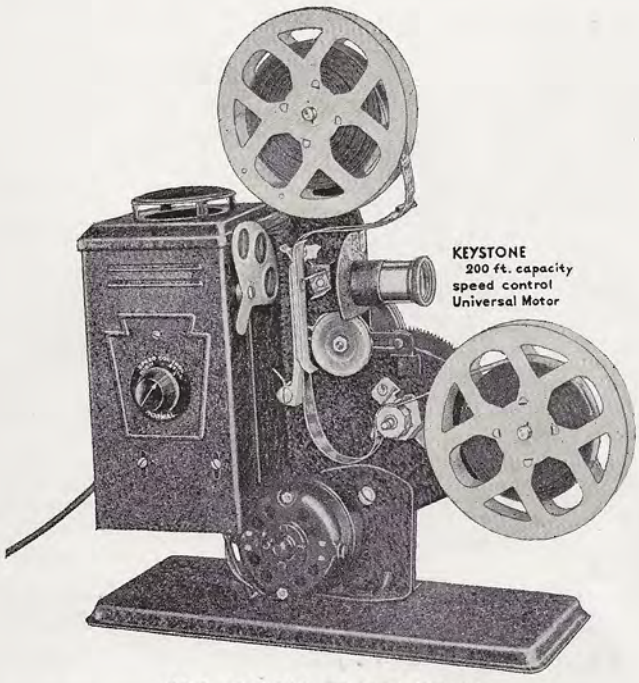

KEYSTONE (JUNIOR) MOVIE PROJECTORS

200 FOOT CAPACITY
WITH THREE COLOR FEATURE

MODEL E-65

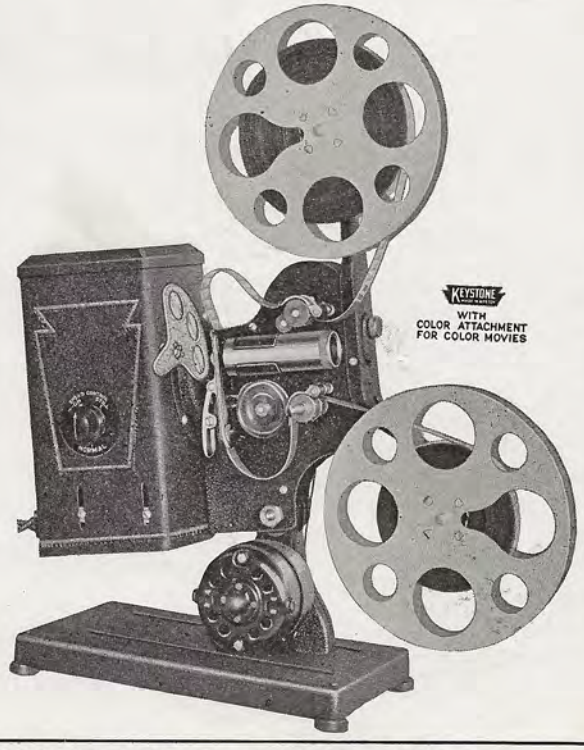

The ONLY 200 foot machine ever placed on the market, at this low price. Equipped with shutter for clear sharp pictures. Machine includes special bulb, cord and plug. FINISH: Maroon enamel. SIZE OF PICTURE: Up to 20" x 26" at a distance of 10 feet. FURNISHED: With one empty 200 foot spool. Has three color feature, red, green and blue semaphore that operates between the light and the lens. WEIGHT: When packed for shipment, 80 lbs. to the dozen.

200 FOOT CAPACITY
MOTOR REWINDS FILM TO UPPER SPOOL!

MODEL E-67

Universal Motor, with speed control on motor. First machine ever built with electric rewind arrangement to rewind the film from the lower spool to the upper spool at this price. Has three color semaphore arrangement, red, green and blue to produce color pictures when black and white film is used. Special bulb, cord and plug. Operates 200 foot film, 200 foot empty spool furnished. WEIGHT: 108 lbs. to dozen when packed for shipment.

MODEL E-53 PROJECTOR

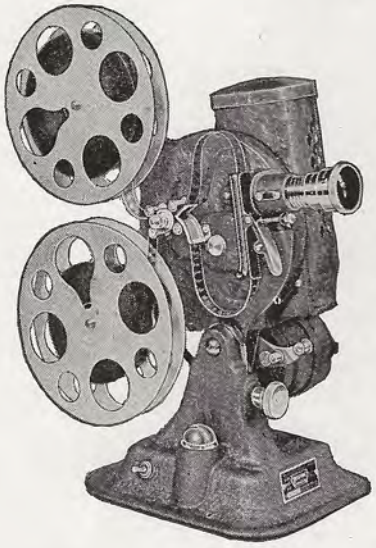

WITH THREE COLOR FEATURE ATTACHMENT

400 FOOT CAPACITY

Equipped with Universal motor drive and speed regulator which permits the adjustment of the speed desired. With professional type 3 blade shutter. ILLUMINATION: Furnished by superlite projection lamp; illumination bulb furnished with machine. Highly polished reflector. LENS: 2¼" focus projection type. CONSTRUCTION: Steel lamp house; attractive baked enamel finish; steel base with rubber tips at bottom to prevent scratching of furniture. REEL CAPACITY: 400-foot. One 400-foot empty spool furnished with machine. REWIND GEAR: Equipped with high speed rewind gear. ADVANCE FEED: This model is equipped with advance feed sprocket which tends to give improved projection same as professional projectors. ANGLE PROJECTION: By a swivel between base and body any angle can be obtained. SIZE OF PICTURE: Up to 20" x 26" at a distance of about 10 feet; smaller pictures at shorter distances. Underwriters approved. WEIGHT: 9 lbs. each.

KEYSTONE MOVIE CAMERAS

MODEL "A" CAMERA

16-MILLIMETER

Price, $35.00 With *f.* 3.5 Lens — **Price, $72.00** With *f.* 1.5 Lens

Convenient Size—2¾″ thick x 9″ long x 4″ wide, with 1½″ lens extension. Symmetrical shape, making Camera easy to carry and permitting firm grip while operating. **High Power Lens**—*f.*3.5 LENS — universal focus with adjustable mechanical iris. This lens is fast and accurate, giving a sharp, true to life picture. The *f.*1.5 LENS is for ultra-rapid speed and is a standard Wollensak Cine-Velostigmat—1″ focus. **Monocular Viewfinder**—Built right into Camera. **Tripod Connection** provided for, but tripod is not necessary to obtain steady pictures. **Spring Motor**—Designed to withstand severe use. **Easy Winding**—Winds very easily. Similar to winding a clock. Key is permanently attached to the Camera and folds down out of the way when not in use. About 20 feet of film can be taken with each winding. **Capacity**—100-foot or 50-foot 16-millimeter film. **Daylight Loading**—Camera may be loaded in broad daylight. **Film Register**—Automatically indicates the amount of film left after taking each scene. **Precision Movement**—Finger type movement feeds film steadily and with hairline accuracy. **Distinctive Finish**—Attractive black wrinkle enamel with highly polished chrome trimmings.

MODEL A-7 CAMERA

Price, $44.50 With *f.* 3.5 Lens — **Price, $84.50** With *f.* 1.5 Lens

Seven Speeds

- High Power—*f.* 3.5 Lens
- Monocular Viewfinder
- Spring Motor
- Film Register
- Spring Release
- Seven Speeds
- Built-In Exposure Scale
- Capacity — 50 or 100 feet
- Finish — Beautiful Black Crackle

ACCESSORIES

NO. 603—KEYSTONE SCREEN

NO. 603 SCREEN

Made of Masonite surfaced with special aluminum preparation. In wood frame. Size: 22″ x 16″. Has swivel pieces at the base so that the screen will stand. Each packed in corrugated carton, weight when packed for shipment 3½ lbs.

NO. 610—KEYSTONE BEADED SCREEN

Showing Screen erected and ready to use.

This excellent screen is ingeniously made into a one-piece folding unit that collapses into a small, compact, easily carried package. The projection surface of this screen is composed of minute glass crystals, embedded in a pure white composition field.

Showing screen closed and ready for carrying or storing

The wooden carrying case in which the screen is built is covered with leatherette with nickel trimmings and leather carrying handle. One pull lifts the screen up into position; to close, pull up the ring. Strongly constructed and bound to give splendid service.

The screen surface measures 30″ x 40″, and when closed for carrying purposes weighs 9¼ lbs.

KEYSTONE FILM CEMENT

Equipped with 3½-inch double convex ground and polished lens, two ventilators to keep the housing cool, two polished reflectors, electric cord plug, sockets for two bulbs inside body. It is strikingly finished in baked green crystal enamel.

SIZE. Length 9¾ in., width 11 in., height 12 in.

Sample Animal and Scenic Cards with each machine.

No. 421 RADIOPTICAN — Price $8.50

Because of its superior lenses, illuminants and reflectors, this model yields a sharper and brighter picture.

LENS SYSTEM. Double Plano-Convex Lens System.

ILLUMINATION. Fitted with large parabolic reflectors and 6 ft. of cord for attaching to any electric light fixture.

PICTURE HOLDERS. Two holders for standard post cards, etc., are mounted on detachable sliding backs with adjustable holders for pictures up to 6½ inches x 5½ inches (patented) eliminating delay between subjects and preventing light being let into room when loading.

COOLING ARRANGEMENTS. Thoroughly ventilated and protected with air spaces.

FINISH. Highly crystalized baked black finish.

SIZE. Length 11 in., width 11¾ in., height 12¼ in.

Sample Animal and Scenic Cards with each machine.

No. 431 RADIOPTICAN — Price $12.50

The illumination in this model is double that of No. 421 and it has the distinct advantage of a sliding carrier for detachable backs, patented adjustable picture holders and minor refinements such as light-tight ventilators.

LENS SYSTEM. Double Plano-Convex Lens System covering prints and photographs up to 6½ x 5½ inches.

ILLUMINATION. Extra large parabolic reflectors and 6 ft. of cord for attaching to any electric light fixture.

PICTURE HOLDERS. Two patented, adjustable holders mounted on metal plates which drop into a double sliding carrier, provide a picture changing system identical with the established standard of all high grade stereopticons. The adjustable holders receive pictures up to 6½ x 5½ inches, either vertical or horizontal.

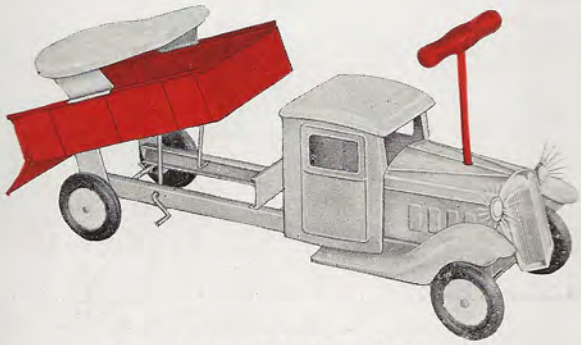

COOLING ARRANGEMENTS. Thoroughly ventilated and provided with air spaces.

FINISH. Highly crystalized baked black finish.

Sample Animal and Scenic Cards with each machine.

KEYSTONE (SMALLER SIZES) STEEL TOYS

Keystone Heavy Steel Toys are internationally known for their durability, finish and design. In bringing out this popular price range we have succeeded in maintaining our same high standard of quality and play value. All these toys are made principally of automobile stock and with the same baked enamel finish as on the large toys. No batteries are furnished.
