KEYSTONE JUNIOR STEEL TOYS

WITH ELECTRIC LIGHTS AND ELECTRIC HORNS

Keystone Heavy Steel Toys are internationally known for their durability, finish and design. In bringing out this new popular price range we have succeeded in maintaining our same high standard of quality and play value. All these toys are made principally of automobile stock and with the same baked enamel finish as on the large toys. All are equipped with durable bulbs. The battery holders are built for two batteries. No batteries are furnished. The light switch is at the seat.

Please read general description in above paragraph.

KEYSTONE HOME MOVIES

16-M.M. PROJECTORS

FOR FOURTEEN YEARS KEYSTONE MANUFACTURING COMPANY HAS LED THE FIELD OF ALL ITS COMPETITORS IN MARKETING A MOTION PICTURE MACHINE PRIMARILY FOR CHILDREN. IT IS NOW RECOGNIZED AS THE STANDARD LINE FOR THE JUNIOR MEMBERS OF THE FAMILY IN MANY COUNTRIES.

THE LINE THAT IS ILLUSTRATED ON THESE PAGES ALSO INCLUDES CAMERAS AND PROJECTORS PRIMARILY FOR THE ADULT MEMBER OF THE FAMILY, NAMELY, D62, B63, A74 PROJECTORS AND MODELS "A" AND "C" CAMERAS. A FILM CATALOGUE, SIMPLE INSTRUCTIONS, ELECTRIC BULB, AND A BROAD GUARANTEE IS FURNISHED WITH EACH OUTFIT.

ALL THESE MACHINES USE 16-MILLIMETER FILM; THE SAME SIZE AS IS USED ON ALL HOME MOVIE EQUIPMENT SUCH AS EASTMAN AND OTHER POPULAR MAKES. FILMS TAKEN ON ANY 16-MILLIMETER CAMERA MAY BE SHOWN ON ANY OF THESE PROJECTORS.

MODEL E-65 PROJECTOR

ILLUMINATION: Furnished by superlite projection lamp, bulb furnished with machine. **REFLECTOR:** Highly polished reflector. **LENS:** Double convex Projection type. **CONSTRUCTION:** Steel lamp house and base; attractive baked crystal enamel finish. **REEL CAPACITY:** 100 foot; two empty spools furnished with machine. **SIMPLE THREADING:** Special aperture plate. **VENTILATION:** From the rear. **ANGLE:** PROJECTION: By a swivel between base and body any angle can be obtained. **SIZE OF PICTURE:** Up to 20" x 26" at a distance of 10 feet; smaller pictures at shorter distances.

MODEL E-67 PROJECTOR

Same in general construction as the E-65. Equipped with Universal motor drive and speed regulator which permits the adjustment of the speed desired.

MODEL E-38 PROJECTOR

With professional type 3 blade shutter. **ILLUMINATION:** Furnished by superlite projection lamp; bulb furnished with machine. **REFLECTOR:** Highly polished reflector. **LENS:** 2 1/4" focus projection type. **CONSTRUCTION:** Steel lamp house; attractive baked crystal enamel finish; steel base with rubber tips to prevent scratching of furniture. **REEL CAPACITY:** 100 foot; two empty spools furnished with machine. **SIZE OF PICTURE:** Up to 20" x 26" at a distance of 10 feet; smaller pictures at shorter distances. **ANGLE PROJECTION:** By a swivel between base and body any angle can be obtained.

MODEL E-39 PROJECTOR

Same in general construction as Model E-38. Equipped with Universal motor drive and speed regulator which permits the adjustment of the speed desired.

MODEL D-62 PROJECTOR . . . \$25.00

ILLUMINATION: Furnished with 6-volt double concentrated filament 32-candlepower bulb connected in series, giving a total of 64-candlepower, connected with transformer. This model for alternating current only. Direct current machines specially furnished on request without extra cost. **LENS:** 2 1/4" focus plano-convex projection type, highly ground and polished, accurately set in lens tube. **CONSTRUCTION:** Cast aluminum alloy body with steel base; attractive baked crystal enamel finish with rubber tips at bottom. **FRAMER:** Automatic—requires no adjustment. **REEL CAPACITY:** 400 foot; two 400 foot empty spools furnished with machine. **SIMPLE THREADING:** Special aperture plate and lever controlled by one finger. **REWIND GEAR:** Equipped with high speed rewind gear and pinion. **PRECISION:** Precision film motion by two claw movement with grip on two sprocket holes instead of one. **ADVANCED FEED:** Has advanced feed sprocket and take-up loops. **ANGLE PROJECTION:** By swivel between base and body any angle may be obtained. **SIZE OF PICTURE:** Up to 20" x 26" at a distance of about 15 feet; smaller pictures at shorter distances. **VENTILATION:** Perforated lamp house top with light deflector. **MOTOR DRIVE:** Heavy duty motor and speed regulator which permits the adjustment of the speed desired.

MODEL E-42 PROJECTOR

With professional type 3 blade shutter. **ILLUMINATION:** Furnished by superlite projection lamp; illumination bulb furnished with machine. Highly polished reflector. **LENS:** 2 1/4" focus projection type. **CONSTRUCTION:** Steel lamp house; attractive baked enamel finish; steel base with rubber tips at bottom to prevent scratching of furniture. **REEL CAPACITY:** 400-foot. Two 400-foot empty spools furnished with machine. **REWIND GEAR:** Equipped with high speed rewind gear. **ADVANCE FEED:** This model is equipped with advance feed sprocket which tends to give improved projection same as professional projectors. **ANGLE PROJECTION:** By a swivel between base and body any angle can be obtained. **SIZE OF PICTURE:** Up to 20" x 26" at a distance of about 10 feet; smaller pictures at shorter distances.

MODEL E-53 PROJECTOR WITH MOTOR

Same in general construction as Model E-42. Equipped with Universal motor drive and speed regulator which permits the adjustment of the speed desired.

KEYSTONE HOME MOVIES

ACCESSORIES FOR PROJECTORS—16 M.M.

NO. 734—KEYSTONE SPLICER

This handy splicer is designed to permit rapid, accurate joining of any 16-millimeter film.

With only a few simple operations you can secure absolutely accurate splices.

The entire splicer weighs but a few ounces and can be easily slipped into your pocket. The Keystone splicer can be conveniently carried with your projector so that you can make splices whenever necessary.

It is the work of only a few seconds to slip the film ends into the splicer where they are held in exactly the proper position for trimming and splicing.

No. 611 SCREEN SET

No. 611 Screen on Stand

Showing Screen Rolled Up In Case

The No. 611 Keystone Screen Set is made of heavy silver cloth on spring roller in a steel case. A metal stand, heavily weighted at the bottom for balance, is supplied with the set. The metal stand is adjustable to a height of five feet. The screen surface measures 30 inches x 24 inches. When not in use, and for transportation, the entire set can be made into a compact bundle.

No. 609—Screen without Stand. Same screen as 611 without stand.

No. 610 KEYSTONE BEADED SCREEN

Showing Screen erected and ready to use.

This excellent screen is ingeniously made into a one-piece folding unit that collapses into a small, compact, easily carried package. Besides a highly perfected projection surface, it has in addition unique self-erecting and self-closing features. The necessity of placing the vertical support by hand has been eliminated. The projection surface of this screen is composed of minute glass crystals, each a perfect sphere, spread to a velvet smoothness and embedded in a pure white composition field. The result is projected pictures which are

Showing screen closed for carrying or storing

brilliant and rich in tone, producing almost an effect of third dimension, yet soft and pleasing to the eye.

The wooden carrying case in which the screen is built is finished in dark walnut with nickel trimmings and leather carrying handle. One pull lifts the screen up into position; to close, pull up the ring, at the same time pressing down with the wrist. The screen will gradually settle in its place in the case. Strongly constructed and bound to give splendid service.

The screen surface measures 30" x 40", and when closed for carrying purposes weighs 9 1/4 lbs.

MODEL E CARRYING CASE

This is a serviceable carrying case fabricated of leatherette, with wood locked corner construction, metal trimmings, leather handle and rubber tips. This case is so designed that any of our "E" Model Kinescopes can be conveniently carried in it. The back of the case serves as a screen on which you may project moving pictures. The screen material used is the standard aluminum color for projection purposes and will give excellent results.

No. 607 SCREEN

Keystone No. 607 Screen is made of heavy silvered cloth offering a superb reflective power. It comes equipped with a folding metal easel, which allows the screen to be placed in an upright position on a table or chair.

Front View

Rear View Showing Easel

No. 607—Size 30" x 24" with metal easel.

No. 603—Size 21" x 16" with metal easel.

Showing Screen Rolled Up

No. 613 SCREEN STAND

This is an all metal stand with an adjustable rod that can be raised to a height of five feet. The base is heavily weighted at the bottom for complete rigidity. The stand, when not in use, can be made into a compact bundle.

KEYSTONE HOME MOVIES

KEYSTONE MOVIE CAMERAS

MODEL A—SPRING MOTOR
WITH f3.5 LENS **WITH f1.5 LENS**
Price \$35.00 **Price \$67.50**

CONVENIENT SIZE: $2\frac{3}{4}$ " thick x 9" long x 4" wide, with $1\frac{1}{2}$ " lens extension. Symmetrical shape, making Camera easy to carry and permitting firm grip while operating. **LIGHT WEIGHT.** f3.5 LENS: universal focus with adjustable mechanical iris. This lens is fast and accurate, giving a sharp, true to life, picture. The f1.5 lens is for ultra-rapid speed and is a standard Wollensak Ciné-Velostigmat lens—1" focus. **MONOCULAR VIEWFINDER:** Built right into Camera. Enables you to sight quickly and accurately the desired action or scene exactly as you want it to appear on the screen. **TRIPOD CONNECTION** provided for, but tripod is not necessary to obtain steady pictures. **SPRING MOTOR:** Designed to withstand severe use. Made of specially treated high grade spring steel. **EASY WINDING:** Winds very easily. Similar to winding a clock. Key is permanently attached to Camera and folds down out of the way when not in use. About 20 feet of film can be taken with each winding. **CAPACITY:** 100-foot, or 50-foot. **DAYLIGHT LOADING:** Camera may be safely loaded in broad daylight. **FILM REGISTER:** Automatically indicates the amount of film left after taking each scene. **PATENTED AUDIBLE FILM FOOTAGE SIGNAL:** At every two feet of film a sound like a faint bell is heard so that without removing camera from eye you will know the amount of film you are taking for a particular subject. **PRECISION MOVEMENT:** Finger type movement feeds film steadily and with hairline accuracy. **DISTINCTIVE FINISH:** Attractive black wrinkle enamel with highly polished chrome trimmings.

HAND CRANK

MODEL C . . . Price \$12.50

CONVENIENT SIZE: $2\frac{3}{4}$ " thick x 9" high x 4" wide, with 1" lens extension. Symmetrical shape, making Camera easy to carry and permitting firm grip while operating. **LIGHT WEIGHT.** KEYSTONE "MODEL C" CAMERA weighs only 3 pounds. **HIGH POWER LENS SYSTEM:** Universal focus, with an adjustable mechanical iris for varied light conditions. The lenses are detachable for cleaning. **PROFESSIONAL TYPE:** Synchronized shutter geared for perfect timing. **HAND CRANK:** With free turning handle. **MONOCULAR VIEWFINDER:** Built right into the Camera. Enables you to see quickly and accurately the desired action or scene exactly as you want it to appear on the screen. **FILM REGISTER:** Automatically indicates the amount of film left after taking each scene. **TRIPOD CONNECTION** provided for. **DAYLIGHT LOADING:** Either the standard 100-foot or 50-foot reels can be used and the Camera can be safely loaded in broad daylight. **PRECISION MOVEMENT:** Finger type movement feeds film steadily and with hairline accuracy. **DISTINCTIVE FINISH:** Attractive black crystal enamel with bright trimmings. **ACCESSORIES:** Leather carrying cases, tripods, screens, screen stands, and complete projection equipment.

No. 411 RADIOPTICAN

Price \$5.00

Equipped with 3½-inch double convex ground and polished lens, two ventilators to keep the housing cool, two polished reflectors, electric cord plug, sockets for two bulbs inside body. It is strikingly finished in baked green crystal enamel.

SIZE. Length 9¾ in., width 11 in., height 12 in.

No. 431 RADIOPTICAN

Price \$12.50

The illumination in this model is double that of No. 421 and it has the distinct advantage of a sliding carrier for detachable backs, patented adjustable picture holders and minor refinements such as light-tight ventilators.

LENS SYSTEM. Double Plano-Convex Lens System covering prints and photographs up to 6½ x 5½ inches.

ILLUMINATION. Extra large parabolic reflectors and 6 ft. of cord for attaching to any electric light fixture.

PICTURE HOLDERS. Two patented, adjustable holders mounted on metal plates which drop into a double sliding carrier, provide a picture changing system identical with the established standard of all high grade stereopticons. The adjustable holders receive pictures up to 6½ x 5½ inches, either vertical or horizontal.

COOLING ARRANGEMENTS. Thoroughly ventilated and provided with air spaces.

FINISH. Highly crystalized baked black finish.

No. 421 RADIOPTICAN

Price \$8.50

Because of its superior lenses, illuminants and reflectors, this model yields a sharper and brighter picture.

LENS SYSTEM. Double Plano-Convex Lens System.

ILLUMINATION. Fitted with large parabolic reflectors and 6 ft. of cord for attaching to any electric light fixture.

PICTURE HOLDERS. Two holders for standard post cards, etc., are mounted on detachable sliding backs with adjustable holders for pictures up to 6½ inches x 5½ inches (patented) eliminating delay between subjects and preventing light being let into room when loading.

COOLING ARRANGEMENTS. Thoroughly ventilated and protected with air spaces.

FINISH. Highly crystalized baked black finish.

SIZE. Length 11 in., width 11¼ in., height 12¼ in.
