KEYSTONE SHOOTING AND EXPLODING TOYS

No. 206—EXPLODING BATTLE FLEET
and Shooting Submarine

A submarine that shoots a torpedo at a target on the Battleship and explodes and scatters the assembled pieces of the ship. Plenty of action just sail with the submarine but plenty of noise when the torpedo strikes the ship target. Very simple to put together and a very exciting toy and near its opposite.

Exploding Battleship equipped with brass deck and gun turret, actuated by compressed diaphragm spring when released by trigger bit. Ship finished in gray and black, red and white. Ship finished in gray and black. Shooting submarine 4 1/2" long, equipped with deck tower and torpedo actuated by spring spring with trigger release. Submarine finished in gray. Packed in illustrated box, one dozen per carton. Weight per dozen \$1.50.

A FLOOR BATTLESHIP

SHOOTS PROJECTILES

No. 207 SHOOTING BATTLESHIP

Length 18". Fitted with 2 shooting cannons with projectiles, flying paravents, side lights and cabin. Supplied with painted ship target. Finished in red water line, gray superstructure, black hull and trim in gray and black. Weight 15 lbs. per dozen. Packed in individual box one dozen per carton.

Shooting Mosquito Boat

SHOOTS PROJECTILE 20 FEET!

No. 201 SHOOTING MOSQUITO BOAT

Length 9 1/2". Equipped with shooting gun and projectile, cabin and side lights. Finished with gray hull, buff deck, gray cabin. Weight 7 lbs. per dozen. Packed two dozen per carton.

KEYSTONE MFG. CO., BOSTON, MASS.
NEW YORK SHOW ROOM, 300 FIFTH AVENUE

KEYSTONE IS THE FIRST TO MARKET 8 M.M. JUVENILE PROJECTORS

8 M.M.

A substantial saving in the cost of film — 55 feet of 8 M.M. film will give a show equivalent to 100 feet of 16 M.M. film — an additional saving of about half the cost of 16 M.M. in the price of the film itself. While the picture area of the 8 M.M. film is not quite as bright as the 16 M.M. — the difference in the cost of film makes the use of 8 M.M. equipment worthwhile to many users.

8 M.M.
